The wines of the Northern Rhone Valley are some of the most iconic in the world. Syrah is the primary grape here, with the regions of Cote Rotie and Cornas producing robust and powerful wines. Look to Hermitage, Crozes Hermitage and Saint Joseph for wines that have a more delicate side to them while still retaining the power and complexity that this area is known for.

The Mediterranean climate in the Southern Rhone Valley helps define the nature of the wines. Based upon Grenache, with the addition of Syrah and Mourvedre, these wines are rich and spicy in their youth, but are also built to last. Elegant and plush at their best, these wines exhibit an underlying power that makes them exceptional.

## W I N E S   O F   A G E

As a restaurant, we are often in a position to purchase wines before they are released to the public. However, sometimes we are able to purchase wines that are referred to as “library wines”. These are wines that have been held at the winery to be released at a later date. These pages are dedicated to the older vintages we have as well as consecutive years of particular wines. We are proud to be able to offer these wines of “vintage depth” for our guests. Please enjoy!
